

2026

# The AI Book

A curated intelligence directory of 600+ top private AI companies with strengths, weaknesses, and strategic insights.

AI Research · Multi-Source Analysis · Data Synthesis

**600+ Companies Profiled**

# The AI Landscape Is a Maze

## Information Overload

10,000+ AI companies globally. No single source maps who's real vs. hype. Decision-makers waste weeks on basic research.

## Scattered Intelligence

Company data lives across Crunchbase, PitchBook, and news. Cross-referencing takes days per target.

## No Strategic Lens

Existing directories list facts but don't analyze strengths, weaknesses, or strategic positioning.

## Rapidly Shifting Market

AI companies pivot, raise, and die quarterly. Static reports are obsolete before they're published.

## WHY IT MATTERS

# AI Investments Demand Better Intelligence

**\$100B+**

AI venture funding in 2024  
alone—investors need signal, not noise

**80%**

of M&A practitioners plan AI tool  
adoption by 2027

**\$10B+**

Projected M&A intelligence market by  
2030

**Corporate dev teams at Fortune 500 companies spend \$1–10B annually on acquisitions. The AI Book provides the strategic lens missing from raw data platforms.**

# Research-Driven Intelligence at Scale

*Built as a living document—designed for iterative updates as the market evolves.*

# An Executive-Ready AI Intelligence Guide

■ <b>600+ Profiles</b>	Curated private AI companies with analysis
■ <b>Strategic SWOT</b>	Strengths & weaknesses for each company
■ <b>Sector Mapping</b>	Categories from foundational to vertical AI
■ <b>Investment Signals</b>	Funding history and growth trajectory
■ <b>Competitive Intel</b>	Head-to-head within sectors

## TECH STACK

### COMPANIES

600+ private AI firms

### DATA SOURCES

100+ aggregated inputs

### ANALYSIS

Multi-AI synthesis

### FORMAT

Digital reference guide

### UPDATE CYCLE

Continuous refresh

## THE RESULTS

# Turning Market Chaos into Clarity

**600+**

Private AI companies profiled and analyzed

**150**

Total views since launch

**100+**

Data sources aggregated per company

**6**

Major AI sectors mapped

What CB Insights charges \$200K/yr for, built solo—providing the strategic lens the market was missing.

## KEY TAKEAWAY

The AI Book demonstrates the ability to synthesize massive, fragmented data into executive-ready intelligence—the same skill that drives billion-dollar M&A decisions.

### Strategic Research

Deep analysis across 600+ companies

### Market Intelligence

SWOT frameworks for AI landscape

### Data Synthesis

100+ sources into actionable insights
